## Assembly Overview

Fit Screen Hangers to TV

Fitting the Wall Bracket

Hanging the TV

## Index

## 1 Measure the TV fixing holes Width and Height

## 2 <br> Fit Screen Hangers to TV

3 Assemble Positioning Template

## 4 Determine Bracket Hole Centers

## 5 Marking Wall For Drill Points

## 6 Fitting the Wall Bracket

Retain all packaging in case the bracket needs to be returned.
Contents may vary from photography / Illustrations.
You will not need all these parts, so expect there to be some left over depending upon the specification of your TV.
This product is intended for indoor use only. Use of this product outdoors could lead to failure and personal injury.
It is the responsibility of the installer to ensure that the mounting wall is of a suitable standard and void of any services (eg gas, electricity, water etc).
AVF accept no responsibility for any damage or loss caused by installing this product in a sub standard wall.

## Outils recommandés

Trouve latte

Ø5.5mm (7/32") Maçonnerie

Ø10mm (25/64") Maçonnerie

Ø3.5mm (9/64") Métal

$\varnothing 3 \mathrm{~mm}$ (1/8") Bois

## Boxed Parts

$\square$

## 1 Measure the TV fixing holes Width and Height

Once you have established which screw diameter you need for your TV you will need to choose which wall spacing you require. Check the back of your TV and use the OPTION that fits your TV. Please see page opposite for more details.

OPTION 3
40mm Wall Space

Suitable for TVs with large obstructions eg power supply, mouldings etc

It is recommended that when fitting Hangers $\mathbf{C}$ and Stand-offs $\mathbf{D}$ to your TV you have at least $5-10 \mathrm{~mm}$ of screw engagement. In certain circumstances you may need to use red spacers $\mathbf{E 2}$ as either a replacement, or together with spacers $\mathbf{E 1}$ to achieve this. Whenever you use red spacers E2 you must use all 4 provided.
In certain circumstances it may be necessary to use red spacer E2 as either a replacement or addition to spacer E1.
When is it necessary to use red spacers E2?

## 4 Determine Bracket Hole Centers

Lay the template on the back of the TV and follow the instructions below.

* If hangers $\mathbf{C}$ do not line up with any holes on the template then ensure template is firmly in position and punch 2 holes to match your top fixing centres with a pencil or sharp object.

Before marking the wall, determine the wall type that you have (i.e. Solid Wall/ Dot \& Dab/ Plasterboard/ Wood Stud/Metal Stud). Ensure the drilling area is free from mains services (Gas/Electric/Water).

Use your template to mark two points on the wall that correspond with the top fixing centers of your TV.

Next, use the Wall Brackets $\mathbf{A}$ and $\mathbf{B}$ as a template and position them over the appropriate PENCIL MARKS you have made, so that the mark is in the middle of the CENTRAL HOLE of the Wall Bracket. Ensure the bracket is level and mark the three DRILL POINTS with a pencil. Repeat for other bracket.
Drill six 3 mm pilot holes and select appropriate fixings (see section 6)

DRILL POINTS
DRILL POINTS

## 6 <br> Fitting the Wall Bracket

Use the correct fixings for your wall type. Mixing fixing screws may be required for installations that span different wall types. DO NOT OVER TIGHTEN SCREWS.

Wood Stud
Min supporting surface specification:$1 / 2$ " thick drywall

Only one fixing will be in the wood stud. The other fixings will be in drywall (see above)

## Metal Stud

Min supporting surface specification:$1 / 2^{\prime \prime}$ thick drywall

0.6 mm ( 0.025 ") MIN stud thickness

H

Only one fixing will be in the metal stud. The other fixings will be in drywall (see above)

Hanging the TV is a two person job.
Present hangers $\mathbf{C}$ (on the back of the TV) to the opening on brackets $\mathbf{A} \& \mathbf{B}$. Slide down and across into place. Ensure both hangers are fully engaged. If cables from the TV prevent the TV resting against the wall then an alternative hanger configuration will be required (see section 2).
TV must be parallel to wall. Use spacers / stand-offs as shown in section 2.

## Removing the TV

This is a two person job. To remove the TV reverse the movements as shown above.
