**466321 rev00**

A technical line drawing of a TV mounting bracket. It consists of a main vertical plate with multiple mounting holes and a horizontal adjustable arm. The arm has two positions: 'UP' (tilted upwards) and 'DOWN' (tilted downwards). The drawing shows the arm in the 'UP' position. The main plate has a large oval cutout at the top and several circular holes below. The arm has a central circular hole and a slot for a locking pin. The 'UP' and 'DOWN' labels are printed on the arm.

**STOP**

Read the operating instructions and keep them in a safe place.

## Optional

You can slide your TV horizontally by small amounts if required

Lock tilt

2 Deciding the correct screw and spacer combination

When deciding which screw diameter and length is suitable for your TV it is important to **STOP** immediately as soon as you feel any resistance to prevent damage to your TV

You are provided with 3 diameters of TV fixing screws, **M4**, **M6** and **M8**. Determine the screw diameter that fits and remember for the next step

Do I need to use spacers **D**?

Spacers are provided so that you can achieve the correct fit between the back of your TV and Mounting Plate, please see below for examples of when spacers are required

**No**  
TV has flat back and flush fixing holes

**Maybe**  
TV has flat back with recessed fixing holes

**Yes**  
TV has irregular or obstructed back

3 Fitting the TV Brackets

Attach the bracket to the back of your TV using a suitable combination of screw, washer and spacer combinations. **DO NOT OVERTIGHTEN!**

After completing step 3 you will have fittings left over, please keep in a safe place for future reference

4 Solid Wall

Remove dust from hole

Tighten with hand tools only

Lubricate screw thread with soap

4 Wood Stud

Ensure drill marks are in the centre of the wood stud

Do not use **H** wall plugs in wood stud

Tighten with hand tools only

Lubricate screw thread with soap
