Tipping Restraint
Dispositif de retenue anti-basculement
Restricción de vertidos

1. Attach one of the brackets to the back of the stand using screw **AD**. Position your stand against the wall and mark a drill point on the wall in line with the bracket.
2. Drill the wall. Pinch the wings of the wall anchor together and push fully in to the wall. Attach the second bracket with the screw provided.
3. Insert the restraint strap through both brackets then pull it through the keyhole slot until it is tight. Pull the end of the strap down until it locks into place in the keyhole slot. Pull the end of the strap back through the keyhole strap to double lock the restraint.

1. Fixez l'un des équerres à l'arrière du support à l'aide de la vis **AD**. Positionnez votre support contre le mur et faites une marque sur le mur en ligne avec le support.
2. Percez le mur. Pincez les ailes de l'ancrage mural et insérez à fond dans le mur. Fixez le deuxième équerre à l'aide de la vis fournie.
3. Insérez la sangle de retenue dans les deux équerres, puis tirez-la dans la fente du trou de serrure jusqu'à ce qu'elle soit bien tendue. Tirez l'extrémité de la sangle jusqu'à ce qu'elle s'enclenche dans la fente du trou de serrure. Tirez le restant de la sangle en arrière à travers la sangle du trou de serrure pour doubler le dispositif de retenue.

1. Sujete uno de los soportes de sujeción a la parte trasera del soporte con el tornillo **AD**. Coloque el soporte contra la pared y señale el punto para taladrar en la pared en línea con el soporte de sujeción.
2. Taladre la pared. Una con firmeza las alas del anclaje de pared y empújelo a fondo en la pared. Sujete el segundo soporte de sujeción con el tornillo provisto.
3. Inserte la correa de restricción a través de los dos soportes de sujeción y tire luego de ella a través de la ranura del ojo de la cerradura hasta que esté prieta. Tire del extremo de la correa hacia abajo hasta que quede sujeta en su sitio en la ranura del ojo de la cerradura. Vuelva a tirar de la correa a través del ojo de la cerradura para que esté doblemente sujeta.
